THE COURT-MARTIAL OF ADMIRAL WILKES.

In the Wilkes Court-Martial, to-day, Commander BALDWIN's testimony was concluded, and the day was consumed in his cross-examination. The substance of his testimony was that the *Vanderbilt* was in a good state of efficiency when the accused transferred his flag to her; that while under his command the accused, from the 26th day of February to the 13th of June, she was fifty days at anchor; that on her trip to Laguira, accused stopped at Bianquilla to see about privateer coal, and that that trip took fifteen days from St. Thomas and back: that the *Vanderbilt* was superior in speed to the other vessels of the squadron, and that before joining the accused, he had made two unsuccessful cruises after the *Alabama* in the *Vanderbilt*; that on the 20th of June he left in the *Vanderbilt* for the Brazils, and learned that the rebel privateers had been there some five or six weeks before, and had destroyed many vessels.

RECONSTRUCTION THEORY.

Resolutions were offered to-day by Representative WILLIAMS, which declare that the existing relation between Union and rebel States constitutes a condition of public war; that the appeal of rebel States from legal tribunals to the sword has not withdrawn the case from the purview of the Constitution, which makes the war power the rule of arbitrament of the pending controversy; that while rebels by that law and the proclamation of August, 1861, are belligerents, and outside the Union as States, the jurisdiction of our Government over their territory and citizens continues unimpaired; that so long as these States continue under armed occupation of our troops, all civil functions, the election of Congressmen or Presidential Electors, must be suspended; and that when the rebellion in any State is suppressed, it becomes the exclusive right of the legislative power to say upon what terms those Territories may return to the Union, and that in adjustment of the existing controversy, it will be entirely competent to provide indemnity for expenses of the war, and security against future outbreak, by removing the cause and confiscating absolutely the property of rebels.

WEST POINT MILITARY ACADEMY.

The West Point Bill, as it passed the Senate to-day, increases the pay of cadets to forty dollars per month; placing them upon an equality with midshipmen in the Naval Academy, but forbids any payment to those appointed in contraveption of the strictest letter of the law. It also authorizes the appointment of one additional cadet from each district unrepresented in the present Congress.

MILITARY CONFIRMATIONS.

The Military Committee of the Senate have agreed to report for confirmation an extended list of Quartermasters, Commissaries and Paymasters now required for active service. Many nominations of these grades, as well as of Brigadier and Major-Generals, are suspended on account of charges now undergoing investigation.

THE NATIONAL CURRENCY.

The Committee on Ways and Means this morning erased the amendment in the Bank Bill authorizing the issue of notes of less denominations than five dollars. This amendment is favored both by the Secretary and the Comptroller of the Treasury, and by the banks.

ADDITIONAL OCEAN STEAM SERVICE.

The question of furthering the interest of American commerce, by promoting the establishment of additional ocean steam service, is receiving attention. Among the bills adopted is one for a line between New-York and Southampton.

DEPARTURE OF REFORMED REBELS.

A detachment of about 250 rebel soldiers, prisoners of war who have taken the oath of allegiance, started for New-York on a special train this evening.

INCREASE OF SOLDIERS' PAY.

The Military Committee of the House have decided to report in favor of increasing the pay of soldiers to eighteen dollars per month, and sergeants to thirty.

THE RECIPROCITY TREATY.

The Canadian Reciprocity Treaty is under discussion in the House Commerce Committee, and final action will soon be taken on it.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Monday, March 14.

GEN. MEADE.

The *National Intelligencer* of this morning says: "Rumors, evidently founded upon misapprehension, having obtained currency to the effect tha the health of Gen. MEADE had become so much impaired as to induce his resignation of the command of the Army of the Potomac, and has gone so far to designate his successor, we are happy to be able to state, as we do on good authority, that this distinguished officer has entirely recovered from his recent indisposition, and that he has never entertained the remotest intention of retiring from a position in which, we may add, he has secured the confidence of the country and the army, and where he has earned such a high military reputation. The recent visits of Gen. MEADE to this city, as we understand, have been for the purpose of consultation and to give testimony before the Committee on the Conduct of the War, and not in view of any contemplated separation from his command. He was expected to return this morning to the army."

THE EXCHANGE OF PRISONERS.

This morning's *Chronicle* contains an article which says:

"Gen. WADSWORTH left this city for Fortress Monroe yesterday, with orders from the War Department to stop all exchanges of prisoners upon the basis recently acted upon by the rebels, by which one hundred rebel prisoners are exchanged for every seventy-five of ours in possession of the rebel authorities. Gen. WADSWORTH has been instructed to state that no more prisoners will be exchanged except upon the principle of man for man, and that, too, without regard to color."

This is authoritatively denied, with the exception of the single fact that Gen. WADSWORTH has left the city. There is not a shadow of a foundation for the above statement, or any portion of it. The Government has no intention of interfering with the business or regulating the exchanges intrusted to Gen. BUTLER.

THE NATIONAL CURRENCY.

The bill remodeling the National Currency Act, as reported to-day from the Committee of Ways and Means, by Representative HOOPER, of Massachusetts, fixes the term of office at five years of the Comptroller of the Currency. Associations for banking may be formed by not less than five persons. One hundred thousand dollars is the minimum limit of capital, and two hundred thousand dollars in cities of a population of 50,000. Banks are empowered to discount and negotiate promissory notes, checks, and other evidences of debt; to receive deposits; buy and sell coin and bullion, loan money and circulate notes. Increase of capital is allowed, the maximum to be determined by the Comptroller; and the capital may be reduced by a two-thirds vote of the stockholders. Fifty per cent. must be paid in before commencing business, and United States registered bonds, bearing interest, shall be transferred to the United States Treasurer to not less than one-third of the amount of the capital stock paid in, but in no case less than $30,000. On delivery of such bonds to the United States Treasurer, banks are entitled to receive notes to the amount of ninety per cent. of current market value of United States bonds transferred. The amount of circulation is limited to $300,000,000; the total liabilities of any individual or company shall at no time exceed one-tenth of the capital stock paid in; but *bona fide* bills of exchange drawn against actually existing values are not regarded as money borrowed. The rate of interest fixed is 7 per cent., which may be taken in advance, and the taking of a higher rate shall forfeit the entire interest. Banks in St. Louis, Louisville, Chicago, New-Orleans, Cincinnati, Baltimore, Philadelphia, Boston, New-York and San Francisco, shall have in hand at least 25 per cent. of the aggregate amount of circulation and deposits. All others 15 per cent. When lower in funds, no discounts or loans can be made, or make dividends of profits until the amount is restored. Each bank shall select an association in one of the principal cities to redeem its notes at par. Before declaring dividends, one-tenth part of the profits must be carried to a surplus fund, until it shall amount to twenty per cent of the capital stock. No bank shall make loan or discount on security of its own shares of capital, or purchase such shares unless necessary to prevent loss upon a debt previously contracted, and stock so purchased must be sold within six months. All associations under this act, when designated by the Secretary of the Treasury, may be depositaries of public moneys, excepting receipts from customs.

TRANSFER OF GUERRILLAS.

Five noted guerrillas were forwarded from the Old Capitol Prison to Fort Warren to-day. These men are reported to be desperate characters, and it was thought advisable to put them in a secure place where they could do no harm.

FRAUDS AT THE NAVY-YARD.

Yesterday the Marine Guard took possession of the naval stores by order of the Secretary of the Navy, and several parties were arrested on suspicion of being implicated in frauds.

Objected to, laid over and ordered to be printed.

RELIEF TO PATENTEES.

Mr. SAULSBURY reported a bill to amend the Patent act of March 3, 1863, which is designed to afford relief to inventors or assignees, who failed to perfect their patents through neglect to pay in season the fee, by allowing them six months further in which to pay the fee, but no one can be held responsible for making or using such articles previous to the date of final payment.

Referred to the Committee on Patents.

NAVAL SUPPLIES.

Mr. GRIMES, of Iowa, (Union,) introduced a bill, in relation to naval supplies, which was referred to the Committee on Naval Affairs.

It provides for the appointment at each navy-yard of a disbursing and purchasing agent, a naval storekeeper and one inspector and receiver. Purchases must be made upon requisition of the Navy Department, and requisition for money be approved by the commandant, and drawn from the department or the bureau ordering supplies. The inspector and receiver must take charge of all supplies furnished to the yard, except those for the bureaus of medicine and surgery, provisions and clothing, and navigation and ordnance; must inspect, weigh, measure or count the same, and the certification of bills, and upon approval deliver to the naval storekeeper. This officer is a check upon the inspector, and must keep a record of supplies received and issued. The bureaus exempted above are placed under similar restrictions and safeguards. Mr. GRIMES opposed the ninth section, allowing an Adjutant, Quartermaster and Commissary to each battalion of engineers, to be selected from the Lieutenants on duty with the battalion. He could not see the propriety of appointing these officers to a mere fragment of men. He was informed now that the battalion of engineers in the regular army had one General, four Colonels, eight Lieutenant-Colonels, twelve Majors and twenty-four Captains.

WEST POINT ACADEMY.

The morning hour having expired, the West Point Academy Appropriation Bill came up in order, the pending amendment being that of Mr. ANTHONY, providing for a competitive examination under the direction of the Secretary of War. Mr. ANTHONY's amendment was rejected—15 to 20.

Mr. DAVIS, of Kentucky, (Dem.,) would wish to have the amendment modified, so as to make them appointment independent of politics, else young citizens of African descent might be selected.

Messrs. DOOLITTLE and CLARK, of New-Hampshire, (Union) defended the Administration from any political bias in the selection of military officers.

The amendments of Messrs. HALE and DOOLITTLE were adopted and the bill passed.

THE CONSULAR APPOINTMENT BILL.

Mr. FESSENDEN called up the Consular and Diplomatic Appointment Bill. After a debate on an amendment of Mr. SUMNER to create a Minister Plenipotentiary at the Court of Belgium, without action, the Senate adjourned.

THE DESTRUCTION OF SLAVERY.

Mr. RICE, of Maine, (Union,) introduced resolutions declaring Slavery to be the progenitor of social and political evil, tending to the demoralization of free labor, and, therefore, Slavery should be entirely extinguished. At his own instance it lies over.

Whereas, Congress has, by the passage of the late Revenue Bill, approved the principle of taxing stocks of liquor on hand, by taxing all foreign liquors on hand; therefore, it is

Resolved, That the Committee on Ways and Means in the next Revenue Bill be instructed to incorporate therein a provision to tax all stocks of domestic liquors on hand for sale at the rate of sixty cents a gallon where it has not been laid, and forty cents where twenty cents a gallon has been paid.

Mr. STEVENS, of Pennsylvania, (Union,) objected to the introduction of the bill.

Mr. WASHBURN moved a suspension of the rules, but this was not agreed to; yeas 54, nays 55, as follows:

THE GOLD BILL.

On motion of Mr. STEVENS the House took up the Gold Bill, as returned from the Senate, with amendments, in which he moved concurrence.

The following is the bill:

Resolved, &c., That the Secretary of the Treasury be authorized to anticipate the payment of interest on the public debt by a period not exceeding one year from time to time, either with or without a rebate of interest upon the coupons, as to him may seem expedient; and he is hereby authorized to dispose of any gold in the Treasury of the United States not necessary for the payment of interest of the public debt.

Mr. KERNAN, of New-York, (Dem.,) said, although it authorized the Secretary of the Treasury to sell the surplus gold, it was merely a proposition to enable the Government to use its coin to shave its own paper at an enormous discount. He congratulated the country and House that the proposition had not been recommended by the President or any head of a department, nor did it come from the Committee of Ways and Means, for they had heretofore reported that the bill ought not to pass. The bill was sustained by an outside pressure or influence which had but little care for the welfare of the country and the Government. The law of 1862 pledged the coin, which it was now proposed to sell for depreciated paper, to the payment of interest on the public debt, and one per cent. toward the extinction of the principal. This was a wise provision, for it gave us strength and ability to go into the market to borrow. He repeated, it was unwise and unprecedented to authorize the Government to shave its own paper, and alluded to the gold flutter in Wall-street, reading, in this connection, from a private letter, written by a firm supporter of the Republican party, to show the evil effects which would result from this measure, and stating that the bill as it originally passed the House—authorizing the Secretary to anticipate the payment of the public interest—would be sufficient, and the best and only remedy, and this opinion was expressed after the writer had consulted with able and intelligent men and not in gold-speculating cliques. No matter how the Secretary may act, there will continue to be speculation in gold. If he sells out, gold will go down and speculators buy it, and the same speculators will then put up its price. To authorize the power now proposed, was the first step toward repudiation, and he would never give a vote that would give power to the Government to dabble in stocks with gold.

Mr. PRUYN, of New-York, (Dem.,) said a few days ago the House, by a decided vote, provided merely for anticipating the payment of interest on the public debt. The Senate, it appeared, added an amendment authorizing the Secretary of the Treasury to sell the surplus gold. The question was whether anything had occurred since the House took its vote to now induce it to change its ground. The idea that the action of the House caused the rise in gold a few days ago was entirely unfounded. If they were then wrong they should now change their course, but not otherwise. By the act of 1862 the payment of interest on the public debt and one per centage toward the sinking fund, would take the surplus gold out of the Treasury. The only result of the measure, as it came from the Senate, must be mischief. His colleague (Mr. STRBBINS) some days ago, did not succeed in convincing him that no matter what might be the extent of the public debt, there was a sufficiency of resources to meet it. There was a limit to the credit of a Government as well as to that of an individual. The limit must be reached. It must stop somewhere. He repeated, we ought not to go into market to shave our own paper. He objected to placing the power proposed in the House in the hands of any one man, and expressed the hope that the House would stand by the solitary principle it heretofore adopted, namely, enabling the Secretary of the Treasury to anticipate interest on the public debt.

Mr. COX said, when the proposition authorizing the Secretary of the Treasury to sell gold was first brought before the House, he and his friends objected to its consideration. It was then charged by the *Tribune* that they were in the interest of stockjobbers. If so, the gentleman from Massachusetts (BOUTWELL) was in the same company. He was in favor of the proposition to authorize the Secretary to anticipate the payment of interest on the public debt, if that was necessary to reduce the amount of gold in the Treasury, and because that would be legal. But he was opposed to authorizing him to sell the gold. The price of gold was not effected by legislation here, and it might go up or down for a time without power on their part to control it. They might as well legislate on gravitation or hydrostatics as to attempt to overrule the laws of trade. They might affect temporarily the market; but gold, after all, would seek its proper level. The guards to prevent speculation had been brushed away by the Senate. He opposed conferring the authority contained in the Senate amendment. He opposed it as a man jealous of power. He would give to the Secretary of the Treasury absolute power to control the interests of 30,000,000 of people. He hoped the House would adhere to its original position, and not yield to the clamors of stock-jobbers and brokers, and reechoed from the Senate, but stand up for straightforward measures as commended by the honest men of the land.

The discussion was further continued by Messrs. Alley, Hulburd, Stevens, Boutwell and Hooper, when,

Mr. STEVENS said, as other gentlemen desired to speak, and as, if the House adjourn now, this subject would come up as unfinished business to-morrow, he made that motion.

It was agreed to, and at 4½ o'clock the House adjourned.

FROM NEWBERN.

A Fight on the Chowan River—Official Orders from Gen. Peck.

FORTRESS MONROE, Friday, March 14.

The gunboat *Bombshell* arrived at Plymouth, N. C., on Saturday last from the Chowan River. She reports that a crowd of negroes awaited her coming down the river, and that the rebels opened on her from their batteries on the banks, rendering it impossible for her to proceed. Her commander sent to Plymouth for assistance. The gunboats *Southfield* and *Whitehead* were dispatched to the scene, as was also the *Massassoit*, with one hundred infantry on board. The gunboats opened on the enemy, and shelled them for five hours, when the rebels dispersed, and the river was opened. A 100-pounder Parrott gun exploded on board the *Southfield*, wounding two men. There were no other casualties on our vessels.

NEWBERN, Tuesday, March 8.

Soldiers, and irresponsible persons, who have been writing for their own amusement, have made the following very proper order necessary:

HEADQUARTERS ARMY AND DISTRICT OF NORTH CAROLINA, NEWBERN, N. C., March 7.

GENERAL ORDERS No. 26.—Information hazardous to the interests of the army, and of a nature to benefit the enemy, having been made public, and instances of misrepresentation and misunderstanding having occurred, it is ordered that no communication be furnished for publication in newspapers in Northern States by any person in North Carolina other than authorized correspondents who shall have registered their names and those of the journals to which they are contributors, at these headquarters. All such will be held to a strict accountability for what they may write.

By command of Maj.-Gen. PECK.

BENJ. F. FOSTER, Asst.-Adjt.-Gen.

Official: JAMES S. MCKAY, Acting Aid-de-Camp.

HEADQUARTERS ARMY EIGHTH DISTRICT OF NORTH CAROLINA, NEWBERN, N. C., March 2, 1864.

GENERAL ORDERS No. 24.—The Commanding-General is gratified in being enabled to announce another in the series of successful enterprises against the enemy, projected by Brig.-Gen. WESSELLS, commanding sub-division of the Albemarle.

The army gunboat *Foster*, Capt. MCLAUGHLIN commanding, with a detachment of infantry under Lieut. HELM, One Hundred and First Pennsylvania Volunteers, was sent, on Feb. 16, on an expedition to Fairfield, N. C., where a band of guerrillas under command of Capt. SPENCER was quartered.

The camp was suprised, the arms and stores secured and the whole company taken prisoners without loss upon our side.

The affair was conducted in a severe snow-storm, and reflects much credit upon the officers and men concerned. By command of Maj.-Gen. PECK.

(Official.) BENJ. B. FOSTER, Assistant Adjt.

JAS. S. MCKEY, Acting Aid-de-Camp.

Another Attack Apprehended—The Firemen's Reception to Chief Decker.

Correspondence of the New-York Times.

NEWBERN, Tuesday, March 8, 1864.

The excitement here continues, and a second attack by the rebels is looked for daily. In the meantime, Gen. PECK is adding new works and strengthening the old ones along the entire line from the Neuse to the Trent Rivers, under the direction of Col. A. H. DUTTON, his very efficient Chief of Staff. The rivers are effectually blockaded, and it will be impossible for the famous iron-clads to reach here.

The firemen, who so gallantly performed their arduous duty during the recent attack, have been supplied with complete equipments, and are ready at a moment's notice to take their places in the breastworks. Storekeepers, clerks, and all other citizens have been enrolled and formed into companies. Reinforcements have arrived, but not enough. We should have enough force here to act on the offensive. A little exertion on our, part and Kinston, Wilmington—in fact, the whole State of North Carolina—would be ours. Deserters are continually coming in, and from them we learn that most of LONGSTREET's old division is at Kinston, and that attacks will be made at Washington and at Newbern at the same time.

Parson JAMES, as he is called here, the Superintendent of contrabands in this department, has received the appointment of Captain and Assistant Quartermaster.

JOHN DECKER, the Chief of the New-York Fire Department, received a grand reception and serenade from the Newbern Fire Department on Sunday night. What with the music, torchlights, speeches and whisky, the firemen had a grand time.

A rebel Major and a squad of ten men have just been brought in from the outpost at Brice's Creek. The rebels are constantly increasing their line of pickets, and shots and newspapers are exchanged between the two lines every day.

The bonds of the rebel loan, to the extent of £71,000, repayable at par, were drawn in London on the 1st of March.

The correspondence relative to the bark *Saxon* is published. The British Government maintains that if the facts deposed to are true, the Federal officer was guilty of the murder of the mate of the *Saxon*. They demand his trial, with compensation to the widow of the murdered man, and to the owners for the loss sustained by the seizure of the vessel.

PROCEEDINGS OF PARLIAMENT.

There had been another wordy duel between Mr. DISRAELI and Lord PALMERSTON touching England's foreign policy, without result.

In the House of Lords, the Marquis of Clanricarde called attention to the Federal recruiting in Ireland, and asked what steps the Government had taken to stop it.

Earl RUSSELL said the Government had complained more than once, but the complaint was met by an indignant denial by Mr. ADAMS. Nothing could, therefore, be done until actual proof could be obtained.

Earl DERBY asked if anything had been done to stop the alleged military exercises by the Fenian Brotherhood.

Earl GRANVILLE said police vigilance was at work, but he believed the Fenian Brotherhood a perfectly contemptible organization.

It is stated that the Direction of the Galway line appeal for a suspension of their service till June, and in the meantime are treating with more able companies for a transfer of the service.

THE WAR IN DENMARK.

The allies made a close reconnoissance toward Duppel on the 2d.

The Danes had burnt down all the farms on the line of their outposts.

A cavalry skirmish took place on the 29th near Fredericks. The Danes captured thirty hussars.

Gen. DE MEZA expresses the belief that Duppel cannot be taken before the end of May or the beginning of June, even under the most unfavorable circumstances to the Danes.

The Berlin and Vienna journals continue to ridicule the notion of a conference.

It is stated that the Danish Minister of Foreign Affairs, M. QUADE, has resigned, he being disposed to a Congress, in which he was opposed by his colleagues.

The London *Morning Post* discerns that Russia and Prussia, relying on the fancied separation of England and France, have bound themselves together for the extermination of what they call revolution, and for the permanent erection of despotism in Europe. M. VON BISMARK has asserted that Germany would never be on good terms with Denmark so long as the present democratic institutions of Denmark are maintained. The *Post* promises that England will renew again in a just cause the French alliance, and says:

"With our gallant neighbors and the Italians and Scandinavians, and with the Poles, Hungarians and Turks, it will be indeed amazing if we do not make short work of this new holy alliance."

There had been no fighting in Schleswig. Gen. GERLACH had succeeded DE MEZA as Commander-in-Chief of the Danish army.

The King of Denmark spoke strongly for vigorous perseverance in his policy. The Denmark journals are opposed to a conference on the basis proposed, and the movement has apparently made no progress. It is reported that Italy has tendered 40,000 men and a fleet to England if she will assist Denmark.

FRANCE.

The *Moniteur*, in announing the fall of Campeachy, says it is the ruin of the Juarez party.

Le Nord says Marshal MCMAHON will have command of the Chalons Camp this year.

The Bourse was heavy on Wednesday. Rentes 66f. 50c.

The Federal steamer *Kearsarge* remained off Boulogne, it is supposed waiting for the *Rappahannock*, which was ready for sea at Calais.

There were rumors of a misunderstanding between the French Emperor and DROUYN DE LHUYS, and a probable change in the Foreign Minister.

Bourse 66f. 65c.

The Archduke MAXIMILIAN's visit to Paris is further postponed. The alleged cause is influenza, but it is rumored there is a hitch as to his having command of the French troops in Mexico.

SPAIN.

It is stated that the new Ministry is desirous of restoring the Spanish credit in foreign markets.

Señor MON has formed a Spanish Ministry.

AUSTRIA.

Treasonable societies and insurrectionary movements have been discovered in the Austrian Province of Gallicia, and a state of siege is proclaimed; all persons were ordered to deliver up their arms.

It is also stated that the Austrian forces in Venetia have been raised to 180,000 and placed on a war footing, the Emperor assuming the command.

ARRIVAL OF THE FIFTY-SIXTH REGIMENT NEW-YORK VOLUNTEERS.—This veteran regiment, Col. C B. VAN WYCK, commanding, arrived yesterday on steamer *Fulton*, from Port Royal. The regiment was organized in 1861, in the counties of Orange and Sullivan, was in the Peninsular campaign under Gen. MCCLELLAN, and in July last was at James Island, S. C. The regiment, better known as the "Tenth Legion," took the field eleven hundred strong, since which it has been reinforced by substitutes and volunteers to the number of 300, making its total force 1,400; of that number it has nearly 860 left, 430 have returned on furlough, and have reënlisted, and nearly 300 are vet in the field. Of its original roster of about forty officers, only the following return with it: Col. VAN WYCK; Adjt. H. B. Loomis; Capts. James Dubois and and A. H. Chittenden; First Lieuts. John Metcalf, J. S. Holmes, C. B. Young, M. Dorancy, N. Crossman and R. Gillett; Second Lieuts. E. Scranston, E. Loomis, S. D. Wheat and W. H. Auchmoody. To-day they will be the recipients of a public reception by the sons of Orange and Sullivan resident in this City, and a collation at the armory of the Seventh Regiment.

SECOND FIRE ZOUAVES.—The Second Fire Zouaves, under command of Lieut.-Col. M. BURNS, left yesterday, per transport, for Alexandria. Since they have been in the City they have recruited about 125 men, being more than they brought home. The men were all in excellent spirits and anxious to get back to their old brigade. A detail was left for recruiting service, so that all who wish to join the regiment may still do so by applying to their tent in the City Hall Park.

THE REBELLION.

The work of reorganizing the Army of the Potomac is proceeding this week. The number of corps will be reduced to three—the First and Third being absorbed into the Second, Fifth and Sixth—to be commanded respectively by Maj.-Gens. Hancock, Warren and Sedgwick. This will make three very strong corps.

The President, by an official order promulgated yesterday, makes the following military assignments: First, Lieut.-Gen. Grant is assigned to the command of the armies of the United States; second, Maj.-Gen. Halleck is relieved from duty as General-in-Chief and assigned to special duty at Washington as Chief of the Staff of the army; third, Maj.-Gen. Sherman is assigned to the command of the Military Division of the Mississippi, lately commanded by Gen. Grant, and comprising the Departments of the Ohio, Cumberland, Tennessee and Arkansas; fourth, Maj.-Gen. McPherson is assigned to the command of the Deparment of Tennessee, recently commanded by Gen. Sherman; fifth, Lieut.-Gen. Grant will establish his headquarters in the field with the respective armies operating under his personal supervision.

It is understood that the President, in making recent important assignments to military commands in the West, has been guided solely by the suggestions of Lieut.-Gen. Grant, who recommended Gen. Sherman for the command of the Military Division of the Mississippi, and Gen. McPherson for the command of the Department of Tennessee. Both these officers are juniors in rank to Gens. Thomas, Hooker and Slocum, who command only armies in the field, or corps.

A telegram from Boston says that private advices have reached that city of the departure of the rebel pirate *Rappahannock*, from Calais, on the 20th ult. The pirate is said to have an armament of six guns, and a crew of picked men, who have received three months' pay in advance. East India waters will probably be her cruising ground.

Advices from Vicksburgh represent great activity there in shipping troops preparatory for an expedition up the Black, Red and Wachita Rivers. Coöperation was expected from Gen. Steele at Little Rock.

The latest information from Morristown places Longstreet's headquarters still at Greenville, Tenn., and his force as occupying Bull's Gap in the Cumberland Mountains.

FROM EUROPE.

By the arrival of the *Jura* at Portland yesterday, we have five days' later news from Europe, bringing advices down to March 4. The news is not very important. Mr. Mason, the rebel envoy, had returned to London from Paris, where he had been, it is supposed, with reference to the rumored French recognition. The correspondence relative to the alleged case of murder on the bark *Saxon*, is published. The British Government maintain that if the facts be true, the Federal officer was guilty of murder, and this Government will have to deliver the culprit for trial, and make compensation to the family of the murdered man. Proceedings in Parliament were unimportant. In the House of Comomns the Government barely escaped defeat by one majority on the 3d. The war in Denmark was languishing. The Allies made a reconnoissance toward Duppel on the 2d. Gen. Geslach had succeeded Gen. de Meza in command of the Danish army. Denmark still opposes a conference on the terms proposed. The Federal steamer *Kearsage* was still at Calais, on the 2d, watching the *Rappahannock*, so that the rumor, from Boston, of the escape of the latter, is untrue. The visit of the Archduke Maximilian to Paris is still further postponed. It was rumored that he had renounced his acceptance of the Mexican throne, but this was denied.

CONGRESS.

In the Senate, yesterday, the bill defining the rank, pay and emoluments of Chaplains and other officers, was passed. The West Point Academy Bill was taken up, which led to a lengthy political discussion, but the bill finally passed, with an amendment, fixing the pay at $40 per month, the same as naval midshipmen.

In the House, various unimportant matters were brought up and disposed of. The House agreed to the report of the Conference Committee on the Deficiency bill. A resolution to print 10,000 copies of Gen. Meade's report of the battle of Gettysburgh, and accompanying documents, was referred to the Printing Committee. Mr. Washburne offered a resolution instructing the Ways and Means Committee to report a bill taxing liquor on hand forty and sixty cents per gallon, respectively, where such tax has and has not been laid. The resolution lies over. The gold bill then came up, and elicited a long discussion, but without concluding its action the House adjourned.

STATE LEGISLATURE.

In the Senate, yesterday, a bill was noticed respecting the Police Courts and Courts of Sessions of New-York and Brooklyn, requiring them to keep records of their proceedings; and a bill was introduced to repeal the law of 1853 relative to certain fees of the Register of New-York. During the evening session the Senate had under consideration a large number of subjects of not very general interest.

In the Assembly, bills were introduced for the establishment of a Metropolitan Market in New-York; relative to the Harlem Bridge at the termination of Third-avenue, and repealing the charter of the Hudson Bridge Company. The resolutions calling upon the Government to retire Gen. Anderson, of Fort Sumter fame, on full pay, on account of his services and present ill-health, were adopted. A resolution in favor of recalling Gen. McClellan to the command of the Army of the Potomac was laid on the table. A concurrent resolution was introduced in favor of abolishing Slavery by constitutional amendment, and was tabled.

GENERAL NEWS.

At the meeting of the Board of Councilmen, yesterday, the City Appropriation Bill was received from the other board and referred to the Finance Committee. It is understood that it will be reported at the next meeting of the board. The Comptroller reported that $62,395 were disbursed from the Relief Fund during the fortnight ending March 5, to 13,712 families, comprising 13,575 adults and 19,604 children; also, that a balance of $361,732 95 remained in the City Treasury on the 12th inst. The Committee on Lands and Places reported favorably upon the request of Major-Gen. Dix, made some time ago, and approved by the Mayor, for permission to remove the Park Barracks to the Battery, but the report was recommitted by a decided vote. The board adjourned to Wednesday at 2 o'clock P. M.

The Board of Supervisors met and organized at noon yesterday as a Board of County Canvassers, choosing Mr. Purdy as Chairman. The returns from all the wards, except the First, Eighth, Fourteenth and Fifteenth, were then canvassed, and the Board took a recess till noon to-day, when the canvass, no doubt, will be completed.

The General Term of the Supreme Court yesterday, rendered decision on the appeal in the case of Ex-Senator Jones, of Iowa, against Wm. H. Seward, for false imprisonment, reversing the order of Justice Clerke, below, denying the application to remove the case to the United States Circuit Court, and sending the case to that court for trial. The opinions delivered will be found in the local column.

From private letters dated Vera Cruz, March 2, we have some important Mexican news which did not reach us by the last arrival from Havana. Gen. Santa Ana arrived at Vera Cruz on Feb. 27, in good health. It was rumored that he had recognized the French Intervention. Minister Corwin was expected to leave for the United States in the April steamer.

William B. Cozzens, widely known in this country, for many years a hotel-keeper in this City, and proprietor of Cozzens' Hotel, at West Point, died at his residence at that place, of heart disease, on Saturday morning, 12th inst.

The *National Intelligencer* very gravely contradicts the report that Gen. Meade is to retire from the command of the Army of the Potomac because of ill health.

The Live Stock markets are overstocked this week, or rather there are too many for the late high prices. The receipts of cattle at Forty-fourth-street were 4,200 up to Monday noon. Several droves came in toward night, and others are expected in time for to-day's sales. With such receipts, it is no wonder that prices fell off 1c.@2c. ₩ lb., and that large numbers were left unsold. A very few extra fat cattle brought 14½c. @15c., good steers 13c., and poor oxen and cows were sold at 9c.@11c., butchers getting good weights, and no fear of a supply to-day.

The Stock market opened at a decline on the Railway list yesterday morning, but rallied at the Second Board, and closed rather higher than on Saturday. The demand for Money was less active, at 6@7 ₩ cent. Gold left off 161¾, as on Saturday, though lower sales were made early in the day.

Business in Breadstuffs yesterday was quite limited at generally easier and irregular prices. A fair demand prevailed for Provisions, Whisky, Tallow, Groceries, Pepper, Salt and Petroleum at uniform quotations. Cotton was dull and heavy. The freight engagements were light.

The Command of the Armies—Important Changes.

We publish to-day a highly important military order dated on Saturday last, at the War Department. The main provision of the order, and the only one which is of national scope and importance, is that which relieves Gen. Halleck from the position of General-in-Chief of the Army, and assigns Lieut.-Gen. Grant to the "command of the armies of the United States." We presume this order confers upon the new Lieutenant-General plenary powers as acting Chief of the National forces, subject, of course, to the approval of the President. If so it be, we are confident that it will give great and general satisfaction throughout the country.

As a corollary, we suppose, to this order, changes in the command of one, and in the organization of the other, of our two great armies have been made or are in progress. The Army of the Potomac, we learn unofficially, is being reorganized into three corps, which shall be commanded respectively by Gens. Warren, Sedgwick and Hancock. The late command of Lieut.-Gen. Grant, designated as the "Military Division of the Mississippi and the armies therein," has been assigned to Gen. Sherman, (W. T.) and it has been enlarged by the addition of Arkansas to its former limits. Still greater unity of action would be secured were it extended southward to the Gulf of Mexico.

The country will look anxiously for speedy and happy results as the consequence of these fundamental changes in command.

Gen. Meade and His Subordinates.—Injustice has been done to Gens. Doubleday and Sickles by the newspaper dispatches from Washington, which intimate that they have in any way been concerned in bringing the charges against Gen. Meade, which have recently been investigated by the Congressional Committee. We have very good authority for saying that nothing whatever can be farther from the truth. They were summoned as witnesses by the committee because their names were introduced in the reports of both Gens. Meade and Halleck, in a manner implying censure of their conduct at Gettysburgh. They were summoned by the committee and questioned on the points in regard to which their action was censured, and as a matter of course they were compelled to state what they believed to be the truth. This ought not, in justice, to subject them to the charge or suspicion of having taken any part in the arraignment of Gen. Meade, and as a matter of fact we believe both those officers have rigidly abstained from any criticism on their Commander, and from any reply to what they deemed erroneous representations of their own conduct in his report.

Conciliation and Perfidy—The Florida Disaster.

The Copperhead journals are doing their utmost to make the Florida reverse tell against the Administration. It strikes us that it is their own policy which has been most damaged by that event. Gen. Seymour, it is now admitted, made a fatal mistake in indiscriminately trusting the loyal professions of the inhabitants along his line of march. He put faith in the general assurance that there was no armed force of any account this side of Tallahassee, and, in that belief, moved carelessly on, until he found himself ambuscaded by twice his numbers. He had observed, from his first disembarkation, the most conciliatory policy toward the people, and unduly trusted to the apparent effect which that policy had wrought. The result was that he was the victim of infamous treachery.

It is said that Gen. Seymour adopted this particularly mild and trustful course of his own motion, without any instructions from Washington; but, whether he did or not, the Copperheads have no right to complain of it. What they have insisted upon from the beginning has been the policy of conciliation. They have ever heaped abuse without measure upon the Administration, because it waged the war without any effort to soothe and pacify. They have rung all the changes upon their favorite simile of "the sword in one hand and the olive branch in the other," and have professed to believe that of the two the olive branch would be the more effective.

What the political sentiments of Gen. Seymour are we know not; but it is undeniable that he practiced upon the Copperhead theory. He *conciliated* faithfully, and, as a requital, was led to the slaughter. If there has been, since the war begun, a single practical demonstration, it is the proof given by this Florida treachery of the folly of propitiating rebels by soft words. And yet these Copperheads have the ineffable impudence to make this very demonstration of the fatal character of their own policy, a new occasion of abuse against the authorities which conduct the war.

President Lincoln never had the slightest expectation that his Amnesty Proclamation would induce the rebel army to throw down its arms. The fact that the proclamation was preceded so shortly before by a call for three hundred thousand additional troops, and was so soon afterward succeeded by another call for two hundred thousand, is sufficient evidence of that. The proclamation was designed particularly for those who were already within our lines, who had ceased to be combatants. It was a civil necessity to meet the cases of tens of thousands of men who had abandoned all connection with the rebellion, and who were yet without any authoritative assurance that their return to loyalty would secure their amnesty and protection. The primary end of the Amnesty Proclamation was not to produce submission, but to settle and secure it when already enforced by arms. It was never for a moment in the mind of the Administration that this rebellion would ever be brought to an end by any other than military means. The Copperheads, who are constantly sneering at the comparatively little effect of the proclamation within the rebel lines, while they grossly wrong the Government by misrepresentation, yet in the very act belie their own arguments. Declaring that the armed rebels treat the proffered amnesty with contempt, which is undoubtedly true, they virtually admit that such rebels are beyond all reach of conciliation, and that a conciliatory policy is entirely useless. They cannot pretend that the amnesty has not a sufficiently wide scope, or that it was tendered with conditions that cannot be accepted, for it simply requires submission to the Constitution and the decisions of the Supreme Court under the Constitution The fact that the amnesty is spurned within the rebel lines is only confirmatory of the correctness of the rigorous war policy of the Government, and substantiates what has been declared from the beginning, that either we must crush the rebellion, or the rebellion must crush us.

The Copperhead policy which Gen. Seymour has so disastrously applied, has about run its course. It is too flagrantly opposed to fact to be adhered to by any sane men. The party must, in spite of themselves, soon quit their prating about conciliation, and declare in earnest for peace at any price, which means submission to the rebellion, and a breaking up of the nation. The war has no other possible alternative. The party which will not loyally sustain the war, in all the range and force that make war effective, is of necessity a disunion party; and this distinction, odious as it may be, cannot be much longer evaded.

The Rebel Calumny on Col. Dahlgren.—We published yesterday morning a letter from Mr. E. A. Paul, our regular correspondent with the Army of the Potomac, which confirms the belief that the rebel authorities have been guilty of deliberate forgery in regard to the papers said to have been found on the body of Col. Dahlgren. As published in the Richmond journals, one of those papers contained the direction that on entering Richmond Jeff. Davis and his Cabinet were to be *killed* by our troops. No man of ordinary intelligence would deem this statement credible for a moment. No officer of the American army would ever dream of putting to death civil officers taken captive by such a raid, and no officer in his senses, even if he were barbarous enough to contemplate such a result, would ever put such orders in writing—not for the guidance of his men, for these were not orders to be issued to his troops, but private memoranda of his own—simply to damn himself to lasting infamy. Col. Dahlgren was a high-toned gentleman, incapable of conceiving such a purpose and equally incapable of putting on record such a thought.

Capt. Paul was the only newspaper correspondent who accompanied the detachment on this expedition. He had been familiar with the project from its inception, had taken an active and a useful part in making preparations for it, and saw all the orders, directions and other papers connected with it. He had read these memoranda of Col. Dahlgren on the day the Colonel started on his expedition: and he states that *they contained no such words* as those the rebels pretend to have found in them. Those words were *interpolated* by the rebels to serve their own purposes. They were intended to excite afresh in the Southern mind that malignant hatred of the Union authorities which the rebel leaders have so carefully fed from the very beginning of their conspiracy, and on which they have so largely relied for its success.

Nothing can more strikingly illustrate the desperate condition of the rebel cause or the utterly unscrupulous character of the rebel leaders. The trick is as base and detestable as can be conceived; but it will have a certain effect, and will, perhaps, aid in stimulating the rebel masses to a continuance of the fatal contest into which they have been seduced. But in the end it will only add one more item to the long catalogue of outrages by which the rebel leaders have deluded the people, and for which, sooner or later, they will be held by them to a rigid account.

Hotels versus Homes—What New-York Needs.

We published a letter on Sunday, complaining bitterly of the enormous prices demanded for rooms in the up-town hotels, added to extortion on the part of waiters, porters and chambermaids; and the conclusion the writer seems to have come to is, that we need "twenty more good hotels" in the upper part of the City, and that the organization of hotel companies ought to be facilitated by a general act of the Legislature. We have not the slightest objection, but the contrary, to any movement which promises to provide additional or better hotel accommodations. New-York is becoming every day more and more of a metropolis. The Park and other attractions, social, literary, theatrical and commercial, will render it in future the resort in Winter of a larger and larger number of persons of leisure and fortune, who live in the country or in provincial towns, but will come here during the bad weather.

But these people travelers, once provided for, we do not agree with our correspondent in supposing that our greatest need is more hotels. Our greatest need is more private houses, and more families with the grace and good sense, and good taste to live in them. The growing preference for hotel life, for the mere purpose of "avoiding trouble," or in other words of shirking every duty in life but that of eating and drinking, and wearing fine clothes, is one of the curses of New-York, and is doing a serious injury to the whole community. There can be nothing worse for women than an idle life in a hotel, without a single serious object for their thoughts, and without a single duty to perform that affords the slightest amount of exercise for either mind or body. There can be nothing worse for children than to grow up without the knowledge of what a home is, without any of its influences or associations, and without any more endearing and elevating remembrances of boyhood or girlhood than those of hotel "feeds," and the noise, and glare, and heat, and dirt of hotel corridors and parlors, and the folly, and frivolity, and vulgarity of the promiscuous crowd that throng them. And yet, our hotels contain large numbers of families who are not compelled to live in them, either from considerations of health or economy. We venture to assert that at least one-third of the hotel boarders are persons who "decline housekeeping," as the advertising phrase is, simply—to speak plainly—through laziness; through a deliberate preference of personal ease to the claims of both family and friends. There is nothing clearer than that it is the duty of every family, and especially of every American family, that can possibly afford it, to have a home of its own, and to use it, not simply for the comfort of its own members, but as a means of giving pleasure to friends and relatives, and as a means of setting an example to the whole community of the domestic virtues and graces.

There is, we admit, a large number of persons, however, driven into hotels by the difficulty—it may now be called impossibility—of finding a house in a decent and healthy locality, in which families of moderate means can live. This is no new thing. It was nearly as much felt before the war as it is now; and our great want, therefore, is not so much more hotels, as more houses. The obstacles in the way of meeting this demand are too numerous to be discussed very fully here. A great one is, of course, the limited area of the island; but this is not so formidable as those created by filth, heavy taxation and the absurdity of fashion. The side streets west of Sixth-avenue, and east of Third-avenue, are rendered uninhabitable for decent people by dirt and bad policeing. Rents are made high by the extravagance and corruption of the City Government. And the horrible fear of doing anything except what very rich people do, which renders New-Yorkers the most gregarious race in the world, has prevented the introduction of "flats," such as people live in in Paris, for the very reasons which dictate their adoption here, and which are by far the most convenient places of abode for people of moderate means and ladies of delicate constitution that have been devised.

FROM ALBANY.

Legalizing Corporate Aid to Drafted Men—The Democratic Split on the War Question—The War Democrats on Slavery.

Correspondence of the New-York Times.

Albany, Monday, March 14, 1864.

The question of legalizing the action of taxpayers who have voted money to aid drafted men in procuring substitutes, or paying commutation, has from time to time during the present session, excited earnest debate in the Assembly. It appears from the bills introduced that not a few localities in the State have voted to raise money upon this basis. The question of legalizing such action is a delicate one, because of its relations to patriotism. Aiding drafted men to commute, or to secure substitutes, has a tendency to render the draft ineffective, and to give such aid by authority of a town, county or State, seems like indirectly opposing the General Government, yet in cases of necessity, action has been taken by taxpayers of this character, and they now ask that such action, and a tax based upon such action, shall be legalized. The discussion of the principle involved in such applications was continued in the Assembly this morning, but the policy to be pursued is not yet defined. Messrs Alvord (Speaker) and Gleason, of Suffolk, are prominent in opposing the views of those who desire to legalize such action. There seems to have been a change in the general sentiment of the House in the course of the past two weeks, which is favorable to those making these applications. That such action as has been taken in cases of necessity will be legalized, although the principal involved is not approved, now seems probable. The question is one upon which the House is now pretty equally divided, but, as before remarked, the opinion of the House is not yet fixed upon this subject.

The Tammany movement, inaugurated at the State Convention of the Democratic party, held in Tweedle Hall, of this city, on the 24th of February last, is vigorously followed up here in the Legislature, as well as in New-York City. It was not a meaningless harangue, but a statement of an impressive truth, when Senator Fields told the peace men of that convention that they never could succeed, upon the platform which they were disposed impliedly to adopt. When Tammany "respectfully withdrew," and on war principles, what was there left of the Democratic party, that has any hold upon the people?

The following preamble and resolution were introduced this morning by Mr. Ryan, of New-York, and are deemed important as expressing the views of many war Democrats:

Whereas, In the present crisis of the country a speedy and successful conclusion of the war should be the chief and controlling purpose of the Government, and that such termination of the struggle now progressing against an atrocious rebellion can best be achieved by a final and constitutional abrogation of its radical course, the system of African Slavery; and

Whereas, Slavery is practically annihilated by the war, and that its prohibition in all the States upon a basis authorizing Congress to project the rights of loyal owners of slaves would provide the most practical form of conciliation with which we could follow up the march of our victorious arms; and

Whereas, Such final and constitutional abrogation of Slavery would clear the path of our manifest destiny, in the acquisition and development of necessary territory, and its industrial organization as new, or as regenerated States, and also restore us to the position of a united people, where we can declare and enforce the integrity and the exclusive prerogative of the democratic institutions on the American continent against any invading or usurping foreign power; therefore,

Resolved, If the Senate concur, that in pursuance of these reasons our Senators in Congress be instructed, and our Representatives requested, to prepare and submit for adoption by the legislatures of the several States, such just and proper amendment to the Constitution of the United States, as shall forever prohibit and terminate the system of African Slavery in the United States.

FROM MEXICO.

Arrival of Santa Ana at Vera Cruz—Minister Corwin to Return Home.

Private letters, dated at Vera Cruz March 2, contain some important items of Mexican news, which did not reach us via Havana.

Gen. Santa Ana arrived at Vera Cruz on Feb. 27, with his wife and child. The General is reported as in excellent health. His advent created no excitement whatever. It was rumored that he had recognized the French Intervention on condition that he should be permitted to issue a manifesto to the Mexican people, but that after he had affixed his signature to the document, he was informed that he would not be allowed to make public his manifesto.

It was expected that Minister Corwin would leave Vera Cruz for the United States in the April steamer.

It was the generally received opinion in well-informed circles that as soon as the French could organize 15,000 men from the Foreign Legion and the native Mexicans, they would withdraw their main army from Mexico, as the number named was regarded as sufficient to guard Maximilian.

Affairs were in a very unsettled state in Tampico, Minatitlan and Tabasco, and the French Commander had been under the necessity of several times strengthening the forces stationed there.

The roads to the capital were safer, on the whole, than they had been for a long time. During the latter part of February a *conducta* arrived at Vera Cruz, and another was expected.

Several correspondents note the sale of large quantities of "trash" at auction by the French.

Cotton was commanding high prices. The following is a list of the vessels in port at Vera Cruz on March 2:

English Brig *Beaver*. Hatfield, ready for sea, destination Cuba.

English bark *Honduras*, McGill, nearly loaded with flour for New-York.

English brig *Minatitlan*, Thomas, nearly loaded with flour for Liverpool.

French bark *Peru*, Leroy, to sail.

English bark *Rapid*, Marschalk, cotton, hides, &c., in a day or two for New-York.

French ship *Lily*, Delanos, discharded.

English schooner *Amy Worster*, Houghton, discharging lumber.

English schooner *Mary Elizabeth*, (Confederate,) discharging cotton for Galveston.

French steamer *Gravilie*, Frat, discharging abarrotes, from Havana.

English brig *Duchess*, Sowlsby, loading hides, &c., for New-York.

English schooner *Mary Clinton*, Reeves, from New-York and Nassau, to commence discharging.

English bark *Albertina*, Ohusted, from New-York and Nassau, to commence discharging.

Danish schooner *Marcaretha*, Bremer, Cadiz, to commence discharging.

THE WAR IN LOUISIANA.

Important Naval Expedition up the Ouchita River—The Rebel Batteries Silenced by the Iron-Clad Fleet.

Cairo, March 14.

Some particulars of the late expedition up the Ouchita River have been received. The gunboats *Ouchita*, *Osage*, *Conestoga*, *Lexington*, *Fort Hindman*, and *Crockett* composed the expedition. Trinity was strongly fortified. The Iron-clad *Osage*, in advancing, was allowed to pass without interruption. The flagship *Hunman* followed, when a heavy fire was opened upon her, which after a time obliged her to retire in a damaged condition, with the loss of two men killed and eight slightly wounded. The flag was then transferred to the *Ouchita*, whose powerful guns silenced the enemy's battery, which consisted of three 32-pounders. But little difficulty was was experienced in driving the enemy from his position at Harrisburgh. Our forces burned the town. The gunboat *Ouchita* received but slight injury during the engagement. The *Hunican* will require considerable repairs.

The gunboat *Conestoga* collided with the *Gen. Price*, on the Mississippi, on the 10th, a short distance below Natchez. The *Conestoga*, with her cargo of ammunition, was sunk. The boat and cargo are a total loss.

ANOTHER DISPATCH.

Cairo, Monday, March 14.

The steamer *War Eagle*, from New-Orleans for Louisville, brought up about fifty tons of sugar and molasses. The Seventeenth Wisconsin Veteran Volunteers are also on board, on their way home.

Memphis dates of the 12th, say cotton was excited under the news from New-York.

Sellers were not anxious to sell. But little cotton remained in the country to come in.

Five hundred new recruits from Iowa have arrived here, on their way South.

FROM VICKSBURGH.

Great Demand for Steamboats—Expedition to Northwest Louisiana.

St. Louis, March 14.

Vicksburgh advices of the 2d say that all the boats in that place have been pressed into the Government service, owing to the reported movement to be made via Black, Red, and Washita Rivers, to Monroe, thence by land to Shreveport.

Gen. Steele will co-operate from Little Rock.

The War in the Southwest.

St. Louis, Monday, March 14.

Gen. Fiske, the Commander of the district of St. Louis, has just returned from a tour of inspection in Southeast Missouri. He reports that numerous bands of guerrillas have been committing depredations in that section and Northeastern Arkansas, and that some bands are preparing for extensive operations in the Spring. Stringent measures will be immediately taken to drive out or destroy all such bands, and establish law and order throughout the department.

Gen. Sully, who is preparing an expedition against the Sioux Indians, under Gen. Pope's orders, has arrived here.

Two iron-clad turret boats were launched at Carondelet on Saturday.

Movements of Generals.

Louisville, Monday, March 14.

Lieut.-Gen. Grant and his Chief of Staff passed here this morning, on their way to Nashville.

Maj.-Gen. W. T. Sherman is expected here to-night.

Brig.-Gen. Ewing arrived this morning, reported to Gen. Bainbridge, and was assigned to the command of this post *vice* Col. Bruce, relieved.

It is rumored that Kentucky will be divided into two districts, with headquarters respectively, at Louisville and Lexington, Burbridge occupying the former, and Ewing, the latter district.

The Strike on the Western Railroads.

Chicago, Monday, March 14.

All the engineers on the Western railroads centering in Chicago have issued a circular to the different railroad companies that unless certain demands made by them are acceded to, reinstating the strikers on the Galena Railroad, they will suspend operations at noon to-morrow. It is believed that arrangements for running the trains on the Eastern roads will not be materially affected by the strike.

ANOTHER DISPATCH.

Chicago, Monday, March 14.

The difficulty between the officers and engineers of the Galena and Chicago Railroad seems to have arisen from the fact that, subsequent to an agreement between them, made on the 1st of January, a new schedule was adopted, requiring the engineers to work a greater number of hours each day than formerly; and the engineers demand a return to the old time, which the officers refuse. A Committee of Engineers, representing the different railroads in the Northwest, have published a circular to all the roads, including the Michigan Southern, declaring that their interests and the interests of the engineers of the Galena Road are identical, and that the act of the Galena Road is a direct attack upon engineers as a class; that they are instructed by the different divisions they represent to say that they will sustain the engineers of the Galena Road at the sacrifice, if necessary, of their positions as engineers.

The convention here adopted a resolution that, if the difficulty is not settled by noon to-morrow, they will, after arriving at the terminal stations of their respective lines, leave their engines and consider their services no longer required.

The Illinois Central and Michigan Southern Railroad Companies have replied to the circular, claiming to have no relations with the Galena road, which authorize them to interfere.

This evening's *Journal* says 1,200 engineers are in the movement.

An Indignation Meeting at Newark.

Newark, Monday, March 14.

A large indignation meeting took place here to-night protesting against a new regulation of the New-Jersey Railroad Company, requiring all passengers to show their tickets at the car entrance in Jersey City. A committee was appointed to wait on the Morris and Essex Railroad to ascertain their facilities, &c.

Resolutions were also adopted proposing an action in the Legislature.

The most general feeling here is, that the new rule is unwise and especially impolitic at the present time.

P. T. Barnum—To the Public.

Having recently added largely to the capacity of this Museum by annexing adjoining premises, and also having engaged in Europe and elsewhere most important and interesting novelties which will be rapidly produced here, I discover that although I devote my entire personal time and attention to catering for public amusement, and managing the Museum, its increased cares and responsibilities demand increased aid in properly conducting it. I have therefore engaged my sons-in-law, Messrs. S H. HURD and D. W. THOMPSON, to assist me in the management of the Museum. The result of this arrangement is that one or more of the managers will be present at all hours when the Museum is open, hence every detail of the entire establishment will come under the immediate personal supervision of a manager who is directly interested in keeping the Museum in the highest state of neatness, order and perfection, and in doing all that is possible to promote the comfort and enjoyment of the thousands of respectable families, ladies and children who daily resort here.

The gorgeous and unique FAIRY FOUNTAIN OF REAL WATER, illuminated by all the colors of the rainbow, just introduced here from Europe for the first time, is one of the most superbly magnificent novelties ever seen in America, and is only one of a large series of startling wonders which have been engaged for the gratification of my patrons. The public's obedient servant,

P. T. BARNUM.

Who Minds a Cold?—It seems a small affair, and, in consequence, is allowed to have its own way; and yet how frequently a neglected cold ends in bronchitis or consumption! Why not take a cold in time, then, and, by using at once Dr. D. JAYNE'S EXPECTORANT, which for thirty years has been a standard remedy for all coughs and colds, avoid these dreadful alternatives?

WHAT IS MEANT BY BRONCHITIS

is an inflammation of the bronchia, or passages which convey air to the lungs. In its earlier stages this disease is commonly called a cold, or a cold in the breast. It usually comes on with a little hoarseness, followed by a moderate cough, with slight feelings of heat or soreness about the throat or chest. If not arrested, the cough becomes one of the most prominent symptoms, as well as the most painful and distressing; the inflammation increases in intensity, until it finally interferes with access of air to the lung cells, when the vital powers soon give way. In most of the stages of this disease Dr. JAYNE'S EXPECTORANT effects a speedy cure, by producing a free and easy expectoration, suppressing the cough and allaying the fever. A fair trial is all that is asked.

IN CONSUMPTION, AND ALL PULMONARY COMPLAINTS,

Dr. JAYNE'S EXPECTORANT will afford immediate relief, by removing the difficulty of breathing, and producing an easy expectoration, whereby all irritating and obstructing matters are removed from the lungs. Having maintained its reputation in all parts of the world for over a quarter of a century, it is confidently recommended as the best remedy ever offered for the diseases it professes to cure. Sold by Agents and Druggists everywhere, from whom may also be obtained Dr. JAYNE'S SANATIVE PILLS, a prompt and effectual cure for costiveness, sick headache, and all bilious affections. The Expectorant, and all Dr. D. JAYNE & SON'S Family Medicines, are sold by KITCHEN, TYLER & CO., No. 141 Chambers-st. and No. 1 Hudson-st., and by Druggists generally.

The Dentists of Boston recommend BURNETT'S TOOTH WASH. It is very much superior to powders. A few drops upon a brush will cleanse the mouth thoroughly.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated
PLANTATION BITTERS,
which are now recommended by the highest medical authorities, and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supersede all other tonics where a healthy, gentle stimulant is required.
They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars see circulars and testimonials around each bottle.
Beware of impostors. Examine every bottle. See that it has our private United States stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the United States law, and will be so prosecuted by us. We already have our eye on several parties refilling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

DEAFNESS AND CATARRH CURED.

No. 420 SIXTH-AV., NEW-YORK, Dec. 2, 1863.

I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.

CATARRH CURED.
READ!

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a pouring fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. I may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. *I hear perfectly.* It is now over a month since the operation, and I continue to feel as well as ever.

WILLIAM LIDDLE,
Harlem, 126th-st., between 2d and 3d avs.

No. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR.

NEW-YORK, July 19, 1861.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. I tis with grateful thanks that I give this testimony to his skill.

CHRONIC CATARRH CURED.

NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought I was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him a great reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

Away she sailed—the Silver Ship—

Ere Ruy Leol, his rival brave,
Should call sweet Yola bride!

"A careful examination of so much of this book as relates to Pension Laws and Practice has led me to the conclusion that, for the present use of attorneys and claimants before this Office, no more valuable treatise can be found. The omission of all obsolete matter, and an attempt to meet all inquiries as to the details and practice under the only Pension Law which now has any great interest for claimants or others, may be specified as of particular merit. The clear style, the candid tone in which you have treated the several topics embraced within your plan, should also commend the work to general favor. I can cordially recommend it to the attention of all persons interested in the various matters of which it treats."

CHICAGO AND GREAT EASTERN
RAILWAY COMPANY,
FIRST MORTGAGE BONDS,
FOR $2,000,000.

SUBSCRIPTION BOOKS OPENED WITH
Messrs. SCHUCHARDT & GEBHARD, Bankers,
No. 21 Nassau-st., New-York.

The Chicago and Great Eastern Railway Company now offer for sale one million one hundred thousand dollars of their first mortgage bonds, in sums of one thousand dollars each, maturing in thirty years, bearing interest at the rate of Seven per cent. per annum, payable in the City of New-York, on the first days of April and October, in each year.

These bonds are secured by a first and only Mortgage on the property, income and franchises of the Railway Company, executed to Frederick Schuchardt and Henry Morgan, of the City of New-York, Trustees.

The remaining nine hundred thousand dollars of the Bonds are set apart and remain in the hands of the said Trustees, for the purpose of being exchanged for the indebtedness of the Chicago and Cincinnati Railroad Company, running from La Crosse to Logansport; this effected, the $2,000,000 will form a First and only mortgage on a line of road 110 miles in length, extending from Chicago to Logansport, where it connects with the Cincinnati and Chicago Air-line Railroad, forming the shortest line by 40 miles, between Chicago and Cincinnati, and by 36 miles the shortest line between Louisville and Chicago.

It will also open, in connection with roads now in operation, entirely new and very direct lines from Chicago to New-York, Philadelphia, Baltimore, and all Eastern cities. The distance between Chicago and New-York by this route being shorter than by either of the existing lines via Dunkirk or Buffalo.

The road is now under contract, and the most strenuous efforts are being made to have it open for traffic during the Summer of 1864.

The interest on the Bonds maturing during the progress of the work has been provided for, and will remain on deposit with the Bankers of the Company, Messrs SCHUCHARDT & GEBHARD, No. 21 Nassau-st., to whom the Company refer for further particulars, and where subscription books for this loan have been opened.

NEW-YORK, March 14, 1864.

TO CAPITALISTS.—THE SUBSCRIBER BEing desirous of retiring from business, hereby offers for sale the establishment known as the Continental Iron Works, located at Green Point, Brooklyn, consisting of all the buildings, machinery, tools and apparatus necessary for prosecuting the business of iron ship building and general iron work, upon the most extensive scale, as the number and size of the iron-clad batteries, which have been constructed at this establishment within the past three years, fully attests. The real estate upon which said establishment is located, can be purchased or leased for a series of years.

This is a rare opportunity for capitalists desiring to embark in a lucrative and rapidly increasing business, to purchase an establishment in working condition, which is unequaled in this country in its adaptation and first-class advantages for the construction and equipment of iron vessels of the largest dimensions, either for the Government or merchant service.

For particulars address the proprietor.
March 15, 1864. T. F. ROWLAND.

GOLD MINING IN IDAHO.—A RARE chance for live men, with some money, to make a fortune. A joint stock company has been formed in this City to proceed to Idaho to prospect for and work the best mines in that territory. Some of the company are the best geologists, chemists and miners in the country. A patent, recently issued, by which all the gold is separated in a cheap and rapid way, and in a manner never before known, gives the company a new and wonderful monopoly. The shares are limited, and every shareholder proposes to go himself. The company will start this Spring, and go with mule teams, taking with them stamps, or alligator jaws, pulverizing mills, desulphurizers and new chemical amalgamators (well tested,) by which from $60 to $1,000 per day in gold can be taken out. The machinery is already partly finished. A few shares remain unsubscribed, and any person with from $1,000 to $5,000, who has little talk and much earnestness, can have a chance in this enterprise, if applied for immediately, at headquarters, No. 120 East 23d-st., near 3d-av. The parties are not irresponsible speculators, but mean and will do what they say. Call from 12 to 4 o'clock.

THE ST. MARY'S CANAL MINERAL LAND COMPANY.—The annual meeting of the St. Mary's Canal Mineral Land Company, for the election of officers for the ensuing year, and for the transaction of any other business that may legally come before the meeting, will be held at the office of the New-York Central Railroad Company, in the City of Albany, N. Y., on FRIDAY, the 25th inst., at 10 o'clock A. M. By order of the Directors.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. DR. WARD, from the Hospitals of London, Paris, and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health call: it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he enables to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 50 Lispenard-st. Call, send, or write.

SPEEDY RELIEF AND SURE CURE GUARANTEED.—Therefore, let no false delicacy prevent your immediate application to Dr. POWERS. Dr. POWERS successfully consulted with Dr. WARD No. 50 Lispenard-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa, gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c., &c. Thirty years of extensive practice, exclusively devoted to the treatment of these complaints, enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitution—physical disqualifications, impediments to marriage, speedily cured. The men to consult. Drs. Ward and Powers, the champions and kings of venereal diseases, possessing the most certain, speedy and only effectual remedies in the world. Those who have used their preventives are never without. Postage free, on receipt of a stamp. Cures warranted.

CAUTION TO LADIES, SINGLE AND MARRIED.—Every woman truly a lady, has an aversion to call in or upon a physician, in respect to complaints peculiar to her sex. No lady need call upon the numerous doctors with whom to uselessly spend her means, as "The Married Woman's Private Medical Companion," price $1, by A. M. Mauriceau, Professor of Diseases of Women, designed especially for the married or those about to be married, points out the mode of treatment to remove obstructions, irregularities, or her other ailments, as mother or wife, with the causes and symptoms, and what best to do. CHICKERING & SONS
MANUFACTURERS OF GRAND, SQUARE, AND UPRIGHT PIANO-FORTES, No. 652 BROADWAY.—The superiority of these instruments has of late been amply demonstrated by the voluntary testimony of the foremost artists of the day, who claim for them excellencies of tone and workmanship hitherto unobtained by any other makers.

Mr. GOTTSCHALK'S constant use of the NEW SCALE CHICKERING GRAND PIANO-FORTES has severely tested their musical qualities, and resulted in establishing the justice of the very flattering estimation in which they are held.

Further Particulars of the Strike at the West Point Foundry.

The excitement in regard to the strike still continues yet, in rather a subdued form. As was stated in our issue of yesterday, it has been found necessary to obtain military assistance. On Saturday afternoon a force of a hundred and twenty men, under the command of Capt. COSDEN, arrived in Cold Spring from Governor's Island. Much indignation was expressed in consequence of this arrival by the operatives on strike, but nothing beyond an excited state of public mind has as yet been manifested. Three of the ringleaders of the strike were arrested by the military and the Sheriff of the County late on Saturday afternoon. It is rumored that they will be conveyed to Fort Lafayette until such time as a legal trial may be opened. The property and persons of the inhabitants have not been injured, and, under the circumstances, the operatives have conducted themselves with greater decorum than was expected. The teachers of the foundry school, fearing that their safety was endangered, left the village late on Saturday afternoon. Sunday passed off very quietly; to the stranger, nothing unusual seemed to engage public attention.

The foundry is now under military guard, one of the large buildings being used as a barracks, and no one is permitted to enter without a pass. All the powder has been removed to West Point for safe-keeping. As yet work has been resumed in only one shop, and the laborers there employed are under the protection of the soldiers. Many of the quietly disposed, your reporter understands, would have begun work yesterday, but persons are safe only while within the limits of the foundry. It is believed that order will be restored and the operations at the foundry resumed in a few days.

The Fourth National Bank, which held $933,000 in Gold last Monday, makes no report of the amount held to-day.

The market for Money to-day was rather less active than at the close of last week, and the Brokers of the Stock Exchange were generally supplied early in the day at 6@7 ℘ cent. The price of Gold at 4 o'clock was much the same as on Saturday, though the bulk of the sales through the day were a fraction lower. The speculators for the rise employ every rumor by telegraph from Washington of the doubtful fate of the Gold Resolution, as amended in the House of Representatives. A rumor of this kind was current at the close of regular 'Change hour.

The Railway speculation was weak at the early Board this forenoon, and there was some disposition to press sales at the decline, except on Michigan Southern and one or two other descriptions. Soon after the Board broke up there was a sudden change of feeling, and Erie, from 121½ sprung up to 123@123½, and sold at the Second Board at 124@124½ ℘ cent. The reaction in favor of Illinois Central was also 3 ℘ cent., and a further advance was made on Michigan Southern old Stock; the highest figures since last August being made on the Afternoon sales. In the morning the shares of Reading and Michigan Central were pressed at a decline of 3@5 ℘ cent., but recovered a good part of this decline at the Second Board:

At 4 o'clock the following prices were made in comparison with the closing figures at the same hour on Saturday. There was great excitement on Michigan Southern after the breaking up of the Second regular Board, and sales were made as high as 110 ℘ cent. The movement is said to be predicated upon the forthcoming annual report of the Board of Directors:
